

ATTY. ROGEL T. TEVES
Vice President, Small Power Utilities Group
National Power Corporation

Atty. Teves was designated as Vice President of Small Power Utilities Group (SPUG) starting 01 August 2018.

Atty. Teves was a product of the Cadetship Program of National Power Corporation (NPC) from 15 January 1990 to 14 January 1991 and started working as Engineer A on 01 June 1992 and was later promoted to Senior Engineer of the Design and Development Department on 01 July 1997. With great enthusiasm and determination to succeed in his professional career, he steadily climbed up the corporate ladder until he was appointed as the Acting Department Manager of the Project Management Department, TMS group, on 07 February 2007. He manages/directs and reviews the implementation of power projects including construction, quality, and cost control, provides direction, formulate strategies, policies, programs, and guidelines for the pre-construction and construction/project management activities including the right-of-way acquisition and social engineering undertakings.

With his proactive management and leadership skills, combined with highly developed organizational skills and the ability to prioritize a substantial workload, on 16 August 2012, Atty. Teves was named as the Department Manager of DDD. He plans, directs, implements, and coordinates the technical and administrative activities of all engineering design and development departments, and support services, namely: (1) Mechanical Engineering Division, (2) Electrical Engineering and Instrumentation Division, (3) Civil Engineering and Architecture Division and (4) Cost Estimation and Contract Specification Division.

Atty. Teves is a graduate of Mechanical Engineering from the University of the East in 1989 and passed the board examination for Mechanical Engineer in June 1990. He obtained his graduate studies with the course of Bachelor of Laws (LLB) from the same school in 2001 and passed the Philippine Bar Examination on the same year.
