

RENE B. BARRUELA
Vice President, Corporate Affairs
Group National Power Corporation

Mr. Rene B. Barruela was appointed as Vice President of Corporate Affairs Group on March 25, 2019. He started with National Power Corporation as senior engineer in 1991 and from there rose from the ranks.

Prior to his appointment as VP, he was Department Manager for Design and Development of the Power Engineering Service (PES) for nine months and for Operations Planning and Performance Assessment of the Small Power Utilities Group (SPUG) for five years.

PES is NPC's engineering arm that implements power projects including engineering designs, construction, quality and cost control. SPUG on the other hand handles off-grid power plant operations and maintenance.
